CONDITIONS OF SALE

PRICES given in this list are intended for wholesale trade only, and cancel all previous quotations. They are based on current conditions and therefore are subject to change without notice.

TERMS:

1. Cash with Order.
2. Half of amount remitted with order, balance C. O. D.
3. Charge Accounts. To firms whose credit has been established with us, strictly 60 days net from date of invoice. Interest may be charged at 6% thereafter. When opening a new account, time may be saved by forwarding bank and trade references.

PACKING at cost will be charged above prices quoted, except when cash accompanies order. Paper pots, when used, will be charged extra.

SHIPPING instructions are requested. Whenever possible we will pool smaller orders in carloads to near vicinity, thus saving on freight and boxing costs. Early placement of orders is essential in insuring accommodation in our pool cars.

CLAIMS or COMPLAINTS should be made within 10 days of receipt of shipment, and in the case of breakage, must be accompanied by a copy of the Report of Damage furnished by an inspector for the carrier at time of delivery of shipment.

D&D Hydrangeas are propagated from deep blue stock plants. The first year in the field they may show little of the blue, but gradually take on the color of the mother plant, due to certain natural chemicals in the soil. Plants are shipped B&B to retain original soil about roots. We recommend the use of Aluminum sulphate or iron filings in the soil, to deepen color.

Excellent stock for forcing. 10 100

CAMELLIAS

CAMELLIA MIKENJAKU

Those who have visited our nurseries this season have commented on the vigorous condition of D&D Camellias. They are grown in pots for 2 years, after which they are bedded out under lath and flowered. Unless otherwise stated, we select for shipping, from the balled stocks, only well budded plants, immediately salable.

Although we do not guarantee flower buds on potted plants, some varieties may carry a certain percentage of buds.

NAMED VARIETIES IN LINING OUT STOCKS

Our lining out stocks of Camellias are well rooted stocks and in healthy condition, and true to name. When a variety is sold out, substitution will not be made without consent of purchaser.

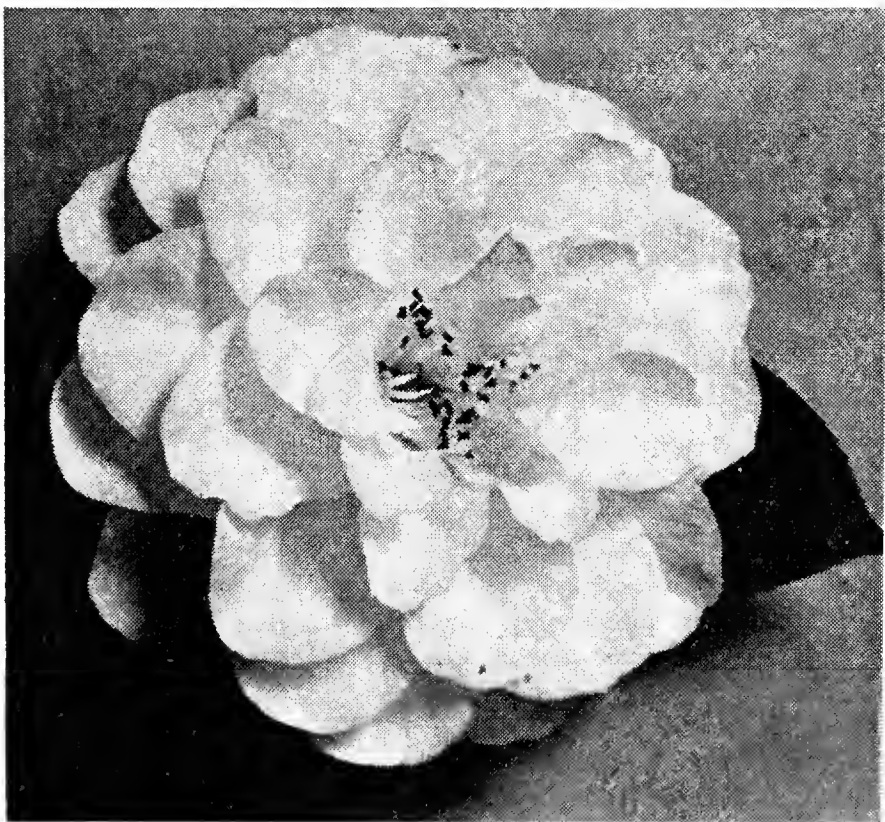

All potted plants are transferred to paper pots and carefully packed, with packing costs waived when cash accompanies order.

THREE SERIES ESPALIER PEAR

ESPALIER FRUIT TREES

As agents for the U. S. Espalier Nursery Co., Portland, exclusive growers of Espalier Fruit Trees, we offer a product of fast growing popularity, grown by skillful and experienced nurserymen trained in European countries where the Espalier tree has reached its greatest perfection. These trees bear fruit almost from the very start, and should be on sale and display in every retail nursery salesyard. Trees are transplanted bareroot, roots packed in moss for shipping.

NEW VARIETIES:—

Alexander Apple—A hardy variety with large fruit highly flavored and fine grained. A late keeper.

OREGON GROWN ROSES

While we do not grow Roses, we are in a district where they are grown in large quantities and shipped to every part of the country. Our contacts make it possible for us to quote, if desired, on non-irrigated, field grown bushes, budded on multiflora. List and quotations will be mailed upon request.
